President's Message October 2019

Summer vacation is over and the kids and grandkids are back in school. Our regular activities have resumed while summer fades to fall. Hopefully we have another four weeks of nice weather ahead. As I write this are experiencing very nice temperatures with little wind.

Workshops are in full swing. Jean Berndt returned in September to teach another free motion quilting class. Thank you to last year's workshop committee lead, Cindy T. for arranging that. This is a popular workshop. Take advantage of the excellent slate of classes arranged for you by the Workshop Committee. The rates are economical; you will be learning something new and get to know your fellow members.

The Regina and District Modern Guild is teaching a slice and insert technique this month. If you haven't tried a modern design, try this workshop. Modern quilting techniques were new to me when I made this quilt. Ruth provides clear instructions, you can add your own style and I was happy to use some of my scraps.

The Quilt Show planning is moving along nicely. Committees are in place and work has started in several areas. The Show Set-up Committee is looking for another volunteer. Can you help? The quilt show categories are included in this newsletter. Explanations of categories and terms will be discussed at the membership meetings. If you still have questions, please ask for clarification so your quilt is in the right category.

The Sunrise branch of the Regina Public Library is hosting an old fashioned fall fair, Saturday, October 19 from 1:30 – 3:30 p.m. The Guild will have a table there promoting the Guild and Connecting Threads Group. Stop by and say hi to Marlene SC; everyone is welcome.

There are so many other opportunities to inspire your creativity – mystery quilt, UFO challenge, and president's challenge. Which one will you try? Don't forget to sign up for the March retreat if there is still room and a workshop or two. Bring a friend.

20/20 PRESIDENT'S CHALLENGE 20/20

I would like to invite you to participate in this year's president's challenge. Since our quilt show 20/20 Endless Visions is coming up, I am challenging you to use the number twenty (20) in your project.

Your creation is about the number twenty (20). Use your imagination and creativity to create a quilted item; you can make a quilt, wall hanging, bag, placemat or whatever you want.

Perhaps you will have 20 blocks, or 20 fabrics, or 20 colours, or 20 pieces in each block, or whatever you can think of to represent the number 20. Maybe you have nineteen friends to help make a group project.

Your construction method can be anything that works best for your creation, for example, machine piece, hand piece, paper piece. Challenge yourself. Add a label and give credit to the source that inspired you.

Use your imagination and create your own design with your factor of 20. Have fun!

Items entered in the challenge will be viewed at the April 7, 2020 general meeting. A prize will be awarded by random draw.

Class
November 9, 2019**

Starting with a solid or pieced background, I will show you a fast and simple way to applique. The applique method I will teach you is a turned edge machine applique that closely mimics hand applique using freezer paper. With this method the appliques are soft and flexible without needing to cut your quilt or remove freezer paper. We will draw circle, square or rectangle applique motifs onto the wash away sheets. Glue the sheet to your applique fabric. Sew the motif onto your project. Wash the sheet away.

Class facilitator is **Lori Tourscher**.

How did you become a quilter?

My Mother and Grandmother were quilters. However, I did not begin quilting until 2004. A group of 5 ladies used to get together weekly in one of the ladies' homes. They invited me to join them. The other ladies all moved away from Regina by 2007. So I put down quilting until January 2017, when a friend invited me to join Connecting Threads.

How would you describe your quilting style?

My style is very basic, with simple patterns. Though this year I did venture out and tried sewing circles, paper piecing, and mitering.
Looking further to taking further classes to learn even more.

What is your best quilting tip?

I have learned some very neat tricks and tips from the ladies at Connecting Threads and the couple workshops that I have taken.
For sewing straight(er) lines, my favourite trick is using painter's tape to pre-mark my quilt.

What do you do with the quilts you make?

Thus far, most of my quilts have gone to Connecting Threads. I did make half a dozen to give to my four grandchildren and one went to a sister and sister-in-law.
I have kept 3 for my own personal use

What is the best part of the quilt guild meetings?

At the Quilt Guild meetings, I enjoy the Trunk Shows; show & share and evenings when we have "Round Robins" to learn new skills in quilting.

Comments:

I am thankful for the opportunities Quilting has given me: opportunities to meet lots of new friends and learn new skills along the way!

Good day to all CQA/ACC Member Guilds,

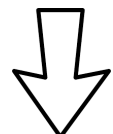

Hard to believe that the summer has flown by so fast! Now that Labour Day has come and gone many guilds will be starting a new year of activities. CQA/ACC wants to inform you of a few items that may be of interest to our member guilds.

**CQA/ACC 2020 Member Guild Challenge -
"Gateway to Adventure"**

We encourage all our member guilds to take up this challenge. As in last year's challenge, ask your guild members to create a quilt and then the guild decides which entry will represent their guild at Quilt Canada 2020 in Edmonton, Alberta. This year all entries must use the Kona, solid colour cotton, named "Jungle," which is a lovely, rich green. Last year 44 guilds participated, let's see if we can't beat that record. Go to the website here to get all the details. New this year - we will have an online entry form for this challenge, so check it out and join the adventure!

Quilt Canada 2020 Sponsorship - Your Guild will soon be receiving a request from our President for your guild's financial support for our annual Quilt Canada Conference, this year in Edmonton, Alberta, June 18-20, 2020. As in previous years, your guild's donation can be designated to specific aspects of the conference or on an as needed basis to help defray costs. All levels of donations are gratefully received as it allows the Association to continue to develop quilting related activities of benefit to quilters right across the country.

2020 Guild Rosette Invitational - The entry guidelines for the 2020 version of this popular show are now posted on our website here . The entry form link will be found on this page as of January 28, 2020 at noon EST.

Entry is limited to the first 25 eligible quilts due to space constraints. We will put notices in the monthly e-newsletter and in social media once the entry form has opened to accept entries.

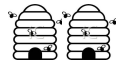

Please ensure that the winner of the guild rosette has their information and picture submitted for the Rosette Winners gallery page on our website prior to January 1, 2020 in order to be eligible to enter. The submission information will be sent with the email that confirms your request for a rosette.

Events Calendar - You can find the calendar links, including one for the event submission form, in the blue bar near the top of the page. You can find the submission form for the event calendar here - <https://canadianquilter.com/calendar-event-form/> Take advantage of this feature to let the quilting community know about your upcoming event.

That's it for now. Another CQA/ACC Member Guild e-newsletter will be sent in March 2020. And your guild should also receive the monthly CQA/ACC Member newsletter with up to date information that is relevant to both individual members and guilds. Please do not hesitate to contact us with any questions or feedback.

Sincerely,

*Carole McCarville
CQA/ACC Executive Director*

FIBONACCI QUILTING

LAST quilt year we had a presentation about using proportion in our quilting based on Fibonacci numbers.

The following explanation is taken from Carole Lyles Shaw website:

FIBONACCI NUMBERS SERIES

So, who was Fibonacci and what are Fibonacci numbers?

This number series was introduced to Western scholars by the Italian mathematician Leonardo of Pisa, known as Fibonacci. The formula looks very complicated, but here's how it works. Fibonacci numbers are very simple. It is a series of numbers in which each number is created as the sum of the two preceding numbers.
